CAUTION: KEEP OUT OF REACH OF CHILDREN

Acidifier is a chemical which is considered safe to handle and use. Always use caution when handling any type of chemical and use precautions such as eyewear and protective clothing especially when wearing cotton or silk garments as this material will cause damage.

Since weather, crop, soil and other conditions may vary, Ultra Gro, LLC makes no warranty of any kind, expressed or implied, including any warranty of merchantability, concerning the use of this product. The user assumes all risks of use or handling whether or not in accordance with the directions or suggestions.

RECOMMENDATIONS

Use 4 oz. to 2 pints of Acidifier per 100 gallons of water to lower and stabilize the pH of the spray solution. The rates of Acidifier may vary with water conditions and will depend upon the alkalinity of the water used or the presence of other products in the spray mix. When buffering irrigation water or spray solution the use of a pH measuring device is recommended to obtain desired pH.

FIRST AID

If swallowed: Rinse mouth. If conscious drink 3 to 4 glasses of water to dilute. **Inhalation:** Move person to fresh air. Treat symptomatically,

if breathing does not return to normal within a few minutes, get medical attention. **Eye Contact:** Rinse with clear running water for 15 minutes.

If eye does not return to normal within a few minutes, get medical attention.

If on skin: Wash exposed skin off with water, if skin does not return to normal within a few minutes, get medical attention.
