SECTION 4: First-aid measures

4.1 Description of necessary first-aid measures

- General advice Treat symptomatically.
- If inhaled Move to fresh air. Call a physician if symptoms develop or persist.
- In case of skin contact, wash it off with soap and water. Get medical attention if irritation develops and persists.
Direct contact with the eyes may cause temporary irritation.
- In case of eye contact, rinse it with water. Get medical attention if irritation develops and persists.
- If swallowed, Rinse mouth. Get medical attention if symptoms occur.

4.2 Most important symptoms/effects, acute and delayed

Treat symptomatically.

Safety Data Sheet

Multi-Action™ Calcium

4.3 Indication of immediate medical attention and special treatment needed, if necessary

Treat symptomatically.

SECTION 5: Fire-fighting measures

5.1 Suitable extinguishing media

Water fog. Foam. Dry chemical powder. Carbon dioxide (CO₂).
Do not use a water jet as an extinguisher, which will spread the fire.

5.2 Specific hazards arising from the chemical

During a fire, gases hazardous to health may be formed.

5.3 Special protective actions for fire-fighters

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Further information

Use standard firefighting procedures and consider the hazards of other involved materials. No unusual fire or explosion hazards were noted.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment, and emergency procedures

Ensure adequate ventilation. Use personal protective equipment. For personal protection, see section 8.

6.2 Environmental precautions

Avoid discharge into drains, water courses, or onto the ground.

6.3 Methods and materials for containment and cleaning up

Large Spills: Stop the flow of material if this is done without risk. Dike the spilled material, where this is possible. Cover with a plastic sheet to prevent spreading. Absorb in vermiculite, dry sand, or earth and place into containers. Following product recovery, flush the area with water.
Small Spills: Wipe with absorbent material (e.g., cloth, fleece). Clean the surface thoroughly to remove residual contamination.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Observe good industrial hygiene practices.

7.2 Conditions for safe storage, including any incompatibilities

Store in the original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

1. UG Proprietary Blend of Non-Hazardous Ingredients

2. Calcium hydroxide hydrate (CAS: 1332-69-0)

8.2 Appropriate engineering controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. Use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits if applicable. If exposure limits have not been established, maintain airborne levels to an acceptable level.

8.3 Individual protection measures, such as personal protective equipment (PPE)

Eye/face protection

Wear safety glasses with side shields (or goggles).

Skin protection

Wear appropriate chemical-resistant gloves. Wear suitable protective clothing.

Body protection

Wear suitable protective clothing, such as an appropriate chemical-resistant apron and boots.

Respiratory protection

In case of insufficient ventilation, wear suitable respiratory equipment. Respiratory protection is not required.

Thermal hazards

Wear appropriate thermal protective clothing when necessary.

Environmental exposure controls

Prevent further leakage or spillage if it is safe to do so. Do not let the product enter drains. Discharge into the environment must be avoided.
